

The 11th Conference of the Asian Regional Section of the International Association for Statistical Computing (IASC-ARS2019) 2-5 December 2019, Hong Kong

Call for Invited Session Proposals

The Local Organizing Committee of the IASC-ARS 2019 invites submissions for the 11th conference on “Statistical Computing for AI and Big Data”. The conference will be held on the campus of the University of Hong Kong on 2-5 December 2019.

This conference will provide a platform for researchers from academia and industry to share their latest findings, exhibit the latest studies and applications, and build up networks with peers in variety areas, including but not limited to, Bayesian computation, big data analytics, biostatistics, computer graphics, computer intensive inferential methods, data mining and machine learning, econometrics, graphical models, image processing and uncertainty quantification.

An invited session proposal includes a session title, general description of the session, list of speakers, and tentative talk titles. The official language for all submissions is English.

If you are interested in organizing an invited session, select a session topic and solicit 3-4 speakers. Organizers of invited sessions must submit a one-page proposal including

- Session title
- Session organizer and affiliation
- Session chair and affiliation
- Session description
- List of speakers and affiliations
- Tentative title for each presentation. Individual abstracts will be required by April 30, 2019, if the proposed session is approved.

Submissions may be made by email to iasc-ars2019@hku.hk. The submission deadline is 8 March 2019. The organizers will be notified of the review committee’s decision by 31 March 2019.

Successfully submission will be acknowledged with an electronic receipt including a reference number, which should be quoted in all correspondence.
