6:00 – 6:50 pm					MATH2211-B	

Remarks: BStat students can choose either (MATH2012 + MATH2014) or (MATH2101 + MATH2211), but the sequence does not matter.

Other courses (if not taken First Semester):

CAES1001: There are about 14 subclasses. (Too many to be listed, so they are not shown above. Please check SIS for details.)

AILT1001: Three subclasses in Second Semester. See the timeslots above. (Only one hour of lecture per week for this 3-credit course.)

Notes:

- As there may be different subclasses in each course, the above timeslots are suggestions only. Students can choose any subclasses of the above-mentioned courses should they prefer, as long as there are no time clashes. Note that seats are not reserved for BStat freshmen in these subclasses of various courses.
- The above timetables are put together for students' reference only. In the event of discrepancies between the above timeslots and the online information in HKU Portal SIS, the online information in SIS shall prevail.
- Students should always select core or required courses first, i.e. the above-mentioned courses in course selection exercise.
- Students should check their class selection results periodically. If students are not successful in getting a place in their first choice, they should choose another subclass in another time slot, given that each subclass has a quota.
- Students are strongly advised to complete their course selection exercise before the suspension period. This is because the number of available places in certain courses may drop significantly after the suspension period, where course-based clearing (or so-called class balloting) will be performed.
- Students are also reminded to pay attention to the quota and drop-consent, if applicable, of each course. Any enquiries about the course enrollment should be directed to the corresponding *course-offering* departments/schools if necessary.
